

POSITION:
EU CLEANTECH POLICY
ANALYST (m|f|d)
REF-NO.:
2024 | FCA | EUCPA
LOCATION:
Brussels
CLOSING DATE:
20.07.2024

FUTURE CLEANTECH ARCHITECTS

Future Cleantech Architects (FCA) is a non-profit climate innovation think tank, located in Remscheid, Germany. We exist to close the remaining innovation gaps to reach net-zero emissions by 2050. FCA accelerates innovation in critical industries where sustainable solutions are still in very early stages. Moreover, we urge policymakers to intensify and better prioritize their R&D activities.

EU CLEANTECH POLICY ANALYST (m|f|d)

RESPONSIBILITIES

As an EU Cleantech Policy Analyst, the successful candidate will work closely with the EU Policy Manager, anticipating, analyzing, and influencing EU initiatives in critical industries such as heavy transport, energy systems and storage, hydrogen, high-temperature industrial heat, and construction. The responsibilities include the following tasks:

- Monitor EU policy and legislative developments.
- Conduct in-depth analysis to identify opportunities and gaps for advancing cleantech solutions and industrial decarbonization at the European level.
- Provide timely and well-researched insights, collaborating closely with FCA's Cleantech Analyst team to integrate technical findings into policy recommendations.
- Develop a range of policy documents, including reports, policy briefs, and amendments in line with FCA's focus areas.
- Work with the Comms Team to develop effective messaging for policy papers and write articles, blog posts, well-designed and concise presentations, and other relevant materials.
- Contribute to the organization of events that bring together EU institutions, policymakers, innovators, and industry representatives.

REQUIRED QUALIFICATIONS | EXPERTISE

- Master's degree in a relevant policy field such as environmental science, climate, and energy systems, political science, law, public administration, international relations, government studies.
- Strong understanding of EU policy and regulatory frameworks in the focused fields, with at least three years of relevant work experience.
- Excellent analytical and research skills to interpret complex technical data and translate it into policy recommendations.
- Effective communication skills to clearly convey technical concepts to non-technical stakeholders.
- Experience in preparing policy documents, presentations, and reports.
- Detail-oriented, able to work proactively and collaboratively in an international team and a dynamic environment, with a passion for driving positive change.
- Excellent command of English, both oral and written.

REMUNERATION

FCA offers a competitive salary at a level commensurate to the level of experience and allowances including post adjustment.

PART-TIME SUITABILITY | WORK FROM HOME

The position is suitable for part-time solutions and allows for predominantly working from home, in Brussels, Belgium. The position requires regular in-person attendance at relevant events in Brussels.

DURATION OF CONTRACT | STARTING DATE

The position can be filled for two years with the intention to prolong the contract thereafter. The starting date would be ASAP.

APPLICATIONS

Candidates are kindly asked to send in their complete applications (CV, cover letter, a reference, and an example of a policy document he/she has written or contributed to) in digital form to HR@fcarchitects.org by July 20, 2024.
